By signing below, I acknowledge and understand these statements:

I am not pregnant. Accuracy of mammograms overall is about 87% in detecting breast cancers. Some redness/tenderness of my breast may occur following my mammogram for 1-2 days due to compression of my breast from the mammography machine. I might be called back to the office for additional work-up. I am responsible for getting my mammogram results if I have not heard back within 2-3 weeks from my referring doctor. I understand that if I continue to have breast problems, regardless of a negative mammogram report, I will contact my doctor for instructions on further follow-up/treatment. **I authorize the release of my breast imaging information, images, and copies pertinent to my medical history and for follow up of any suspicious findings.**
